Commissioner Michael Powell
Chairman, Federal Communications Commission
445 – 12th NW
Washington, DC 20554

Dear Commissioner Powell:

We are writing to express our opposition to the proposed changes being considered by the Federal Communications Commission (FCC) at its upcoming meeting on June 2, 2003.

We understand these changes are intended to relax the limits on the number of television, radio, and newspaper outlets that can be owned and controlled by any single corporation.

These changes would reduce the "voice" of local programming interests and education and also reduce minority ownership interests. **The media outlets and the airways are a public resource and must be maintained for the public good and not for corporate profits.**

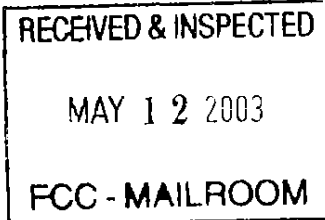

Sincerely,

A handwritten signature in cursive script that reads "Mary & Ken Moresi".

Mary and Ken Moresi
